Chris' addition seems fine.

Thanks,
Joe

I think it only focuses on PFAS and not the arsenic impacts and the treatment systems at the Stanton Street Site under the RCRA 3008(h) Order.

I think they can add a summary below to Section 2.2 of this PA Report, it would help with context.

Ex. 5 Deliberative Process (DP)

Hi Chris,

Just checking in if you got a chance to look at this report before you left. If so, please let me know if you had any concerns or corrections.

Hope you first few days are going well!
Shilpa

Here is the document - it is a final draft since we have not approved yet. Please to no release to the public. I am in a tight deadline, if you have comments I need them by the end of the week.
Thanks,

Nuria

Thanks for following up Nuria. I'll take a look at the draft.

If you are trying to set up the meeting for Monday the 27th, my calendar shows that I'm out of the office. I will be returning on Wednesday.

Shilpa

Subject: JCI -Tyco

Hi Shilpa: Following up on our discussions about JCI Tyco.

I spoke with Judy Fassbender last week and told her that we are proposing to my managers moving forward with Superfund evaluation on the JCI Tyco FTC but not the Stanton St. Facility. The Stanton St. facility is under a RCRA corrective action – the site shows as referred to RCRA in our database and is “technically” not eligible for further NPL

evaluation – unless it is referred back to Superfund. Judy seemed to agree with the decision – She proposed checking in with you this Monday - I will send an invite for 10 am – you and Joe seem to be available.

Meanwhile I will write it up a letter to the petitions for my DD's signature – I would like to add a contact name or the Stanton St facility to the letter – would that be you for the moment? I can share a draft of the letter with you. Would you like to see the draft document?
